

# **FORSYTH: Tobacco Use Prevention & Control: Status and Need**

March 2007

**Tobacco use, the leading preventable cause of death, continues to be a serious problem in FORSYTH and surrounding counties as:**

- ▶ **18.5%** of adults<sup>1</sup> currently smoke cigarettes
- ▶ **57.6%** of high school<sup>2</sup> and **32.9%** of middle school<sup>3</sup> students in this region have tried tobacco (cigarettes, cigars, spit tobacco or other tobacco product)
- ▶ **12.8%** of women smoke while pregnant<sup>4</sup>
- ▶ Tobacco users in FORSYTH County want to quit.  
**59.7%** of FORSYTH adults made a serious quit attempt in 2005<sup>5</sup>

## **Children and adults are increasingly being protected from secondhand smoke in FORSYTH County, but additional work needs to be done.**

FORSYTH County **does not have** 100% Tobacco Free Schools<sup>6</sup>  
 FORSYTH County has **2** 100% Tobacco Free Hospital(s)<sup>7</sup> (expected April & July 2007)  
 FORSYTH County **has** a Tobacco Free Health Department<sup>8</sup>  
 FORSYTH County **has** a Tobacco Free Department of Social Services<sup>9</sup>  
**57%** of FORSYTH County restaurants still allow smoking<sup>10</sup>  
**67.6%** high school students in this region are exposed to secondhand smoke in rooms or cars at least one day or more per week<sup>11</sup>  
**25.0%** adults are exposed to secondhand smoke at work<sup>12</sup>

## **Costs of Smoking in NC and FORSYTH County**

	Estimated Smoking Attributable Health Care Costs	Estimated Smoking Attributable Medicaid Costs
N.C. (2004) <sup>13</sup>	\$2,463,000,000	\$769,000,000
County: (2002)	Data not available	\$24147110 <sup>14</sup>

## Existing Budget & Need- FY06-07

## FORSYTH County

## We Know What Works

### **Reducing Environmental Tobacco Smoke**

- Smoking bans and restrictions

### **Increasing Tobacco Use Cessation**

- Increasing the unit price for tobacco products
- Reducing client out-of-pocket costs for effective cessation therapies
- Multi component interventions that include client telephone support
- Mass media education campaigns combined with other interventions
- Healthcare provider reminder systems
- Healthcare provider reminder systems with provider education, with or without client education

### **Reducing Tobacco Use Initiation**

- Increasing the unit price for tobacco products
- Mass media education campaigns combined with other interventions

### **Restricting Minors' access to tobacco products**

- Community mobilization when combined with additional interventions (stronger local laws directed at retailers, active enforcement of retailer sales laws, retailer education with reinforcement)
